ABOUT US

The company MARO WORLD INC (MWI) is eco-industry in the world. The MWI's business goal is to develop and produce the best technology for achieving sustainable development and circular economy. We have developed and produced more than 200 devices and equipment for environmental protection, for which we have received hundreds of world awards and medals. We have developed the best MO-BO-TO waste recycling technology. By applying our technology, municipal waste becomes an economic resource. Through industrial recycling of mixed communal waste we get 8 types of raw materials, produce eco compost and RDF fuel. Together with you we want to develop industrial recycling of municipal waste in your city, municipality or county.

O NAMA

Kompanija MARO WORLD INC (MWI) je eko-industrija u svetu. Poslovni cilj MWI je da razvije i proizvede najbolju tehnologiju za postizanje održivog razvoja i cirkularne ekonomije. Razvili smo i proizveli više od 200 uređaja i opreme za zaštitu životne sredine, za koje smo dobili stotine svetskih nagrada i medalja. Razvili smo najbolju MO-BO-TO tehnologiju reciklaže otpada. Primenom naše tehnologije komunalni otpad postaje ekonomski resurs. Industrijskom reciklažom mešovitog komunalnog otpada dobijamo 8 vrsta sirovina, proizvodimo eko kompost i RDF gorivo. Zajedno sa vama želimo da razvijemo industrijsku reciklažu komunalnog otpada u vašem gradu, opštini ili okrugu.
